Notes:

1. This report contains ONLY commercial catch estimates; it DOES NOT include testfishing, recreational or First Nations data.
2. These figures are preliminary in-season catch estimates and are subject to change.
3. Consult the applicable Fishery Manager or Biologist as to the status of particular catch estimates.
4. All catch estimates are reported in pieces (numbers of fish).
5. Catch estimates include adults and jacks combined.
6. In the "Estimates" column, a "complete" means that catch estimates are available for all days fished; an "incomplete" means that at least one catch estimate is missing.
